

Construction

Specialist accountants, tax and business advisers for the construction sector

A photograph of a construction site with a large building under construction, covered in scaffolding. In the foreground, four construction workers are visible. Two workers on the left are looking at a tablet together; one is wearing a white hard hat and a yellow safety vest, and the other is wearing a blue hard hat and an orange safety vest. Two other workers on the right are walking away from the camera; one is wearing a white hard hat and a yellow safety vest, and the other is wearing a blue hard hat and a yellow safety vest. The scene is brightly lit, suggesting a sunny day.

SPECIALIST AREAS

- Audit and Accounts
- Personal and Corporate Tax
- Project Costing and Cash Flow Management
- Business Structuring
- Construction Industry Scheme (CIS) Compliance
- VAT Structuring & Reverse Charge

Our services

The construction industry faces its own unique set of challenges, compliance obligations and financial pressures, making it essential to have effective business and financial management systems in place with support from individuals who understand the sector and related issues.

We can help you in areas such as:

- Business start-ups and company formation.
- Annual accounts and tax returns.
- Statutory audit services.
- Specialist tax advice including VAT and CIS.
- Project costing and cash flow management.
- Payroll.
- Corporate governance services.

Examples of the types of businesses we work with:

- Contractors and larger construction groups.
- Residential house builders, property developers and property management companies.
- Trade subcontractors including roofers, scaffolders, plumbers, carpenters and joiners, groundworkers, plasterers and more.
- Technical subcontractors including architects, planning consultants, health and safety consultants, interior designers, building safety consultants and more.
- Landscape designers.
- Builders' merchants and building materials manufacturers.

Why work with us

- **Industry specific expertise** – we understand the unique challenges facing the construction sector, from fluctuating cash flow to complex subcontractor arrangements. You can rely on our depth of knowledge in the sector to help you maximise the value of your business.
- **Proactive, friendly support** – we work closely with all of our clients, offering guidance and support across all aspects of your business. We're a large regional firm, friendly, easy to communicate with and look to build long-lasting relations.
- **Tailored advice** – we provide bespoke accounting strategies that align with your business goals. We understand that there is no one-size fits all!
- **Industry network** – a wide network of local and national contacts.
